# About TypeFaith Foundry

TypeFaith Fonts is a Dutch type foundry specializing in designing unique and creative fonts that blend graphic craftsmanship with creative challenges. Founded in 1999 by Leon Hulst, an experienced designer passionate about typography and graphic design, we see our mission as providing designers and creatives with exceptional fonts that enhance their projects—from branding to editorial layouts. With this dedication to graphic design and typography, we strive to produce typefaces that embody distinct aesthetics, functionality, and a unique character—fonts that inspire and challenge you in the design process.

TypeFaith Fonts is known for its diverse styles, ranging from vintage and retro designs to modern and experimental works. Our fonts are often characterized by playful details, strong shapes, and occasionally a handmade feel. We take pride in creating typefaces that reflect these values, enabling users to achieve extraordinary typographic results. This style suits projects requiring a personal or artisanal touch, while also providing professional fonts suitable for sleek, corporate applications.

Our library offers a variety of fonts designed in multiple styles. We utilize OpenType features extensively, including Stylistic and Contextual Alternates, Ligatures, and Swashes, ensuring versatility in design. Our typefaces support the majority of Latin-based languages.

In addition to font design, TypeFaith Fonts engages in various design and typography projects, offering our fonts through multiple online platforms. TypeFaith is part of WAT ontwerpers; designers in visual communication.

## About Linton

Linton is a sans-serif typeface known for its clean, bold, and modern design. The font is an upper-case and lowercase condensed typeface, designed for headlines and display use. The letterforms are tall and narrow, with minimal stroke contrast, making it excellent for impactful messaging. It possesses a very modern, somewhat industrial look with straight edges and clean curves. Even at smaller sizes or from a distance, the characters remain readable. If you're using it for a project, it works best in display contexts where clarity and visual impact are priorities. Linton is highly legible and can be compared to fonts like Anton, Impact, and League Gothic. Linton Condensed is an expanded font family with various weights. Linton features one OpenType capability that concerns the 'g'. Linton provides two alternative variations of 'g'.

# About TypeFaith Foundry

TypeFaith Fonts is a Dutch type foundry specializing in designing unique and creative fonts that blend graphic craftsmanship with creative challenges. Founded in 1999 by Leon Hulst, an experienced designer passionate about typography and graphic design, we see our mission as providing designers and creatives with exceptional fonts that enhance their projects—from branding to editorial layouts. With this dedication to graphic design and typography, we strive to produce typefaces that embody distinct aesthetics, functionality, and a unique character—fonts that inspire and challenge you in the design process.

TypeFaith Fonts is known for its diverse styles, ranging from vintage and retro designs to modern and experimental works. Our fonts are often characterized by playful details, strong shapes, and occasionally a handmade feel. We take pride in creating typefaces that reflect these values, enabling users to achieve extraordinary typographic results. This style suits projects requiring a personal or artisanal touch, while also providing professional fonts suitable for sleek, corporate applications.

Our library offers a variety of fonts designed in multiple styles. We utilize OpenType features extensively, including Stylistic and Contextual Alternates, Ligatures, and Swashes, ensuring versatility in design. Our typefaces support the majority of Latin-based languages.

In addition to font design, TypeFaith Fonts engages in various design and typography projects, offering our fonts through multiple online platforms. TypeFaith is part of WAT ontwerpers; designers in visual communication.
